PROFESSIONAL SUMMARY

Motivated and hands-on software engineering student at Bahir Dar University with a strong focus on backend and full-stack web development. Experienced in building secure, scalable applications using Node.js, Express, React, and Next.js. Skilled in RESTful APIs, JWT authentication, and MongoDB integration. Known for problem-solving, professional communication, and continuous learning. Actively seeking internship opportunities.

EDUCATION

BSc in Software Development (Expected 2026)
Bahir Dar University, Ethiopia
CGPA: 3.5

EXPERIENCE

- Software Engineering Student** – Bahir Dar University (Feb 2023 – Present)
- Developed backend and full-stack web applications using Node.js, Express, React, and Next.js.
 - Implemented JWT-based authentication and integrated MongoDB databases.
 - Built and tested RESTful APIs following clean and scalable design principles.
 - Troubleshoot real-world issues including deployment errors, port conflicts, and browser compatibility.
 - Collaborated on group projects using Git and GitHub, participating in peer code reviews.

TECHNICAL SKILLS

Front-end	React, Tailwind CSS, JavaScript, HTML, Angular
Backend	Node.js, Express, Python, MongoDB
Databases	Microsoft SQL Server, PostgreSQL, Couchbase
DevOps & Tools	Docker, Linux, Windows Server, Azure, AWS, Git, CI/CD
